

PROTOTYPE ENGINEER IN LOZORNO

TECHNICAL CENTER

The company

Hungry for challenges? Join a group with innovation at its heart and contribute to the automotive revolution!

With 33,000 team members located in 31 countries and a 2016 proforma revenue of €7.5 billion, Plastic Omnium is world leader in its two businesses: automotive and environment.

The Auto Exterior Division is the world leader for the production of body panels and modules. Serving over 70 car manufacturers worldwide, it encompasses 22,000 employees in 83 sites.

Our ambition? Provide automakers with cutting-edge equipment and solutions to develop tomorrow's clean and connected car.

Missions

Technical center in Lozorno is the main engineering center in Central Europe for the Auto Exterior Division. We are developing brand new products for our premium customers. As part of the technical center, you will be working among international teams of engineers specialized in manufacturing processes, in design, in technical purchasing and various other technical functions.

This position is suitable for a young graduate and represents a perfect first step in automotive world!

As prototype engineer you will drive development and realization of prototypes during the development phase and manage mock-up activities. Your main tasks will be to:

- Provide all relevant information for the production of prototype parts or resources
- Gather from the technical teams the necessary elements to make the mock-up
- Select the means and methods of mock-up used according to the objective sought
- Perform these tasks or realize by the subcontractors, taking care of the visible parts
- Provide finishing prototype parts
- Assemble the prototypes and pre-series parts in accordance with the project procedure
- Assist and coordinate tests, while respecting security rules
- Analyze the test results, suggest changes and improvements in a project

Profile

- Engineering degree (technical, engineering field)
- English – intermediate
- Ideally experience in prototyping
- Technical mindset, hand skilled person, detailed oriented
- Good communication skills and organization
- Willingness to travel
